

EDELWEISS AIR SIGNS AGREEMENT FOR IMPLEMENTATION OF TRAINING AND RESOURCE MANAGEMENT SYSTEM MINT TRMS

Kiel, 23. April 2017 - MINT Software Systems is proudly announcing the celebration of a service agreement with the Swiss based Edelweiss Air AG for the delivery of the MINT Training and Resource Management System (MINT TRMS) to support its in-house training services.

The agreement signed between the Swiss based airline and the German software provider includes the delivery of MINT TRMS that allows the “anytime, anywhere” access to training schedules, forms for electronic grading and system administration. It simplifies and optimizes the management of instructor allocation (roster synchronization), classroom distribution, student allocation, course scheduling and the planning and optimization of flight simulator schedules.

“We were looking for a powerful and in the same time flexible training and qualifications management solution and with MINT TRMS we have found it”, says Christoph Zogg, Chief Operating Officer at Edelweiss Air. “With MINT TRMS we will be able to increase the effectiveness of the entire training organization while supporting the continuous growth of our airline”, he adds.

“We are very proud to welcome Edelweiss to the international MINT user community”, says Frank Vieira Hugger Director Sales and Marketing at MINT Software Systems. “The experts at Edelweiss have evaluated the available products on the market very carefully and have nominated MINT Software Systems as their partner of choice for the future support of their growing business. MINT has been asked to implement the state of the art training and resource management system MINT TRMS as replacement for the Edelweiss legacy systems, which were in many ways not capable to fulfill their increasingly complex training requirements”.

MINT TRMS allows customers to optimize their training workflows and speed up the planning process with its outstanding scheduling capabilities. This unique platform helps airlines and training centers all over the globe to significantly enhance their efficiency and the day to day life of all crews and instructors with the instant online access to their training schedules, electronic forms, learning material and other training related data in the integrated and multifunctional web portal.

The agreement with Edelweiss Air includes the delivery of the complete MINT TRMS solution for training scheduling, record management, e-grading, in-depth reporting and analysis capabilities, as well the integration to the Crew Rostering platform used by Edelweiss.

About MINT Software Systems

MINT Software Systems, headquartered in Kiel, Germany, with subsidiaries in Orlando, Florida and Sharjah, UAE and partner companies in Bucaramanga, Colombia and Kiev, Ukraine creates innovative training and resource management solutions used by major aviation players.
