

TURKISH AIRLINES SIGNED AN AGREEMENT WITH MINT SOFTWARE SYSTEMS FOR THE USE OF TRAINING AND RESOURCE MANAGEMENT SYSTEM (MINT TRMS)

Kiel, 17.04.2018 - MINT Software Systems is proudly announcing a service agreement with Turkish Airlines for the delivery of the MINT Training and Resource Management System (MINT TRMS) to enhance further and streamline the management of the flight crew and in-flight crew training of the global airline.

“We are thrilled to welcome Turkish Airlines to the international MINT user community,” says Frank Vieira Hugger Director Sales and Marketing at MINT Software Systems. “After an extensive selection-process, Turkish Airlines training experts have selected our state-of-the-art training and resource management system MINT TRMS which will further fulfill their increasing training requirements within their future growth plans.”

MINT TRMS will allow training planners, instructors and crews with “anytime, anywhere” online access to their training schedules, electronic grading forms, reports, learning materials, and other training related data. It simplifies and optimizes the management of instructor allocation (roster synchronization), classroom distribution, student allocation, course scheduling and the planning and optimization of flight simulator schedules.

“We were looking for the most powerful and in the same time flexible training and qualifications management solution available on the market, and with MINT TRMS we have found it,” says Mustafa Eğılmezbilek, SVP Corporate and Operational Solutions at Turkish Airlines. “With MINT we will be able to further increase the effectiveness and readiness of the entire training organization significantly, to support the extensive fleet expansion plans, Turkish Airlines has set for the coming years,” he adds.

MINT TRMS allows customers to optimize their training workflows and speed up the planning process with its outstanding scheduling capabilities. This unique platform helps airlines and training centers all over the globe to significantly enhance their efficiency and the day to day life of instructors and crews in training.

The agreement with Turkish Airlines includes the MINT hosted (SaaS) MINT TRMS Premium Edition for training schedules, record management, e-grading, in-depth reporting and analysis capabilities, as well as the integration to various Turkish Airlines IT systems including crew rostering system used by Turkish Airlines.

About MINT Software Systems
