

FOR IMMEDIATE RELEASE

KLM Engineering selects MINT TMS

Kiel, 26 March 2019 - MINT Software Systems is proudly announcing the celebration of a service agreement with KLM Engineering and Maintenance (KLM E&M). The agreement includes the delivery of the SaaS version of the MINT Training and Qualification Management System (MINT TMS) for resource qualification, curriculum management and training scheduling at KLM Engineering and Maintenance in the Netherlands.

KLM E&M have identified MINT TMS as a possible solution for all administrative tasks for their growing number of engineering training courses. After some in-depth market study, KLM E&M has now selected the Software as a Service (SaaS) version of MINT TMS as their new platform for efficient training and resource management for their Amsterdam based company headquarters.

“With MINT TMS we have found the perfect fit to all of our requirements” explains Olaf Hoftijzer, Director Training at KLM Engineering and Maintenance. “MINT TMS will effectively support the entire management of our diverse engineering training portfolio. This software supports us in the even the most complex scheduling processes and in the creation of reliable and audit-save documents and reports as required by the Dutch aviation authorities”, he adds.

Klaus Schmidt-Klyk, Key Account Manager at MINT Software Systems, complements: “We are thrilled to win KLM E&M as a new customer because their decision confirms that our solution is seen by EASA approved maintenance training organizations as a state-of-the-art resource and qualification management software to enhance their training and compliance management. MINT TMS is a powerful and extremely flexible solution, and it is adaptable to a wide range of different requirements and business environments. It sets cross-industry standards for training and resource management solutions on a global scale.”

The agreement with KLM E&M includes the complete MINT TMS solution for resource qualification, curriculum management, training scheduling, data collection and report generation for the KLM E&M training facilities in Amsterdam, Netherlands.

About MINT Software Systems

MINT Software Systems, headquartered in Kiel, Germany, with offices in Orlando, Florida, and Sharjah, UAE creates innovative training and resource management solutions used by aviation players all over the globe. MINT's SaaS and onsite solutions employing latest software technology, allowing efficient records and training schedule for crew, ground, and maintenance staff and guarantee trouble-free regulatory compliance with the AQP/ATQP programs of authorities like the FAA and EASA.
